The Basket of Dreams

This beautiful sculpture is on the hills overlooking Lake Wakatipu in New Zealand. It is called the Basket of Dreams and is made from a spiral of steel. Spirals can remind us that we have a choice about the way we live. We can either travel inwards towards self-centredness where we only try to think of ourselves or we can travel outwards towards the world and other people.

FAMILY FOCUS

Spiral of Hope

Start with a circle of paper or light card and draw a spiral. On the spiral write a **hope** or dream that you have that will make the world a safer, cleaner or more healthy place to live. Cut along the lines until you get to the centre, leaving a circle in the middle. Make a hole in the middle so you can hang your spiral from a thread.
(You may want to practice drawing a good spiral on some scrap paper before you start.)

FASCINATING FACTS

Rainbows

After a shower of rain we sometimes see a magnificent rainbow arched across the sky.

- rainbows are the reflection of the sun in the rain droplets in the sky
- they are curved because raindrops are round
- they are multi-coloured because each raindrop splits the sunlight into a spectrum of colours
- the colours of the rainbow are always in the same order – red, orange, yellow, green, blue, indigo and violet – and red is highest in the sky
- an easy way to remember the order is using the mnemonic '**R**ichard **O**f **Y**ork **G**ave **B**attle **I**n **V**ain'. The first letter of each word is also the first letter of the colour.

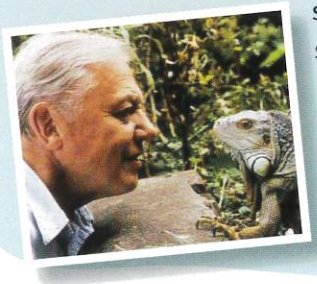

HALL OF FAME

Sir David Attenborough

Sir David Attenborough is best known as a natural history film maker. He has made expeditions all over the world to watch and film wildlife in its natural habitat. His many TV documentary programmes have allowed us all to understand the wonder of nature and the importance of conserving the natural environment if species are to survive.

Sir David has shown us the impact humans have too often made on the natural world and the consequent struggle of wildlife to survive. His **hope** is that we leave future generations a planet that is healthy and inhabitable by all species.

HOME-SCHOOL CHALLENGE

Make a 'hopes and dreams' catcher

Dream catchers are traditionally made from a looped willow branch onto which a net or web is woven. The net is then decorated with feathers, beads and other decorations. According to American Indian folklore, as we sleep, dreams are caught in the net and with the first rays of sunlight any bad dreams are burned away.

Find a long twig that can be bent and tied to make a hoop or frame. Use natural string or thread stretched across the frame to make the net and then decorate it creatively to catch all the **hopes** and dreams you can!
